

## **The Barkerville Connector** ***A Circle Route for Barkerville, Wells & Bowron Lakes***

### **Community Consultation Response Form**

The Barkerville Heritage Trust is undertaking a series of community consultation meetings this fall to determine the level of community support for the proposed ***Barkerville Connector*** route along the Purden Lake/Bowron River Road. A 2006 consultant's report concluded that if this route were to receive upgrades estimated to cost about \$12 million that would better accommodate recreational travel vehicles, the new route could be marketed successfully resulting in more people visiting the Barkerville-Wells-Bowron Lakes area.

The Barkerville Heritage Trust would appreciate your feedback on the proposed ***Barkerville Connector*** to assist the Trust to determine if it should take the proposal to the provincial and federal governments and other funding agencies and seek support for the project. BHT has engaged Kevin Brown (Kevin Brown Communications) to coordinate the Community Consultation process and receive feedback. There are two ways you can provide feedback and assist the Trust.

#### **Formal Letter**

*Please send a letter to:*

Mr. Neil Vant  
Vice Chair  
Barkerville Heritage Trust  
c/o Kevin Brown  
Kevin Brown Communications
